

Week of 4/20/20-4/24/20

Hello everyone, here is this week's review and enrichment opportunities. For the next weeks we are going to focus on reviewing the foundational skills so we are ready for school next year.

A few updates –

KHAN ACADEMY – We will begin using Khanacademy.org next week on Tuesday and Thursday and I would like you to complete 30 minutes per day if you are able. Please email me and I will send you your username and password.

PRINTING – You do not have to print anything! Go old school, copy the problems into your notebooks or on a piece of paper. If you chose to print one of the worksheets out check with your parents first.

EMAILING WORK– Email your work to me by either taking a picture of it or scan it in using your printer. You can attach more than one picture per email. Use the paperclip icon to add additional pictures to your email. If you are having with this let me know and I can help.

Monday, 4/20 – Multi – Digit Multiplication

1. Click on this line. <https://mathantics.com/lesson/multi-digit-multiplication-pt1>
2. Watch the video – click on the YouTube button if you are having trouble viewing it.
3. Click on the Exercises button – write the problems down on a piece - of paper. If you are comfortable with this skill do the problems. (You don't need to do this.)
 - a. If you need more direction watch the Exercises Video and do the problems with Rob.
https://mathantics.com/lesson/multi-digit-multiplication-pt1/exercises_video
4. Click on this link to complete the work.
https://mathantics.com/files/pdfs/Worksheets_MultiDigitMultiplicationPart1.pdf (You don't have to do pg. 2)
5. I have provided you with the answer keys to check your work, please be honest and use them only to check your work. https://mathantics.com/files/pdfs/Worksheets_MultiDigitMultiplicationPart1_Answers.pdf
